<https://gtr.agiletestingalliance.org/schedule/>

General Guidelines

1. The conference is **hosted on MS Teams** – (Microsoft Teams) – You should have the Teams app downloaded for better experience.
2. Kindly join the event using a **single device**
3. **Please join with the same name as registered. Do not use names like guest.**
4. Kindly **be on Mute** if you are not speaking
5. In case of queries, please drop a message in the **WhatsApp group** – We have our volunteering team a part of it, they will help you resolve your queries.

It is very important that your MS Teams account is in good working order.

Windows users: If you have been using it successfully for video conferencing then you should be okay, You can join using browser or preferred mode is to install MS Teams and join as guest.

OSX users: Please make sure to do the following:

- Download the MS Teams App and install it.
- Trying to run the browser version was giving us a hard time so we don't recommend it. It doesn't work on Safari and it isn't reliable on Chrome or Firefox. Hence please install the App
- After you install the app, go to System Preferences > Privacy > Screen Recording, and activate MS Teams
- Quit the MS Teams app and relaunch it.
